Foreword

This bibliography is complete through 1993. All of the references were found in either the Boise or Ogden Field Office, Forest Pest Management (FPM) and are indexed by author and subject. as well as being grouped by year. Over the years, FPM has had a multitude of name changes. Included references may cite any of the following unit names: FPM, Forest Insect and Disease Management (FIDM), Forest Insect and Disease Control (FIDC), Methods Application Group (MAG), ARS Bureau of Entomology and Plant Quarantine, and the Bureau of Entomology-Forest Insect Investigations. Some National Park Service (NPS) documents were also included.

1993

1 ANHOLD, J. 1993 A biological evaluation of spruce beetle activity in the Neffs Management Area, Fishlake National Forest, Loa Ranger District. FPM Report 93-01. Ogden, UT:USDA Forest Service, Intermountain Region.

2 THIER, R.; MUNSON, S. 1993 Efficacy of MCH to prevent spruce beetle infestation. FPM Report 93-02. Ogden, UT:USDA Forest Service, Intermountain Region, 8 p.

3 THIER, R. 1993 A field test of the efficacy of MCH in preventing Douglas-fir infestation by Douglas-fir beetle. FPM Report 93-03. Ogden, UT:USDA Forest Service, Intermountain Region, 7 p.

4 WEATHERBY, J.; GARDNER, B.; BARBOULETOS, T. 1993 A Douglas-fir tussock moth hazard rating for use in southern Idaho. FPM Report 93-04. Ogden, UT:USDA Forest Service, Intermountain Region, 14 p.

5 WEATHERBY, J; THIER, R. 1993 Preliminary validation of a Douglas-fir beetle hazard rating system, Mountain Home Ranger District, Boise National Forest. FPM Report 93-05. Ogden, UT:USDA Forest Service, Intermountain Region, 7 p.
